ABRIDGED PROSPECTUS

OF THE

ARMY & NAVY HOTEL, LIMITED.

Shareholders of Five Shares and upwards will be entitled to a reduction of 10 per cent. off the Hotel Tariff.

CAPITAL £100,000 in 20,000 SHARES of £5 Each,

Payable £1 on application, £1 on allotment.

COMMITTEE OF DIRECTION :

Major MACKENZIE, of Findon, *Chairman.*	Major HUGHES-HALLETT.
Major C. S. BLAIR.	Colonel WILKINSON TAYLOR.
Lieut.-Colonel JAMES HARRIS.	Major FRANCOIS MACKENZIE.

BANKERS :

LONDON & COUNTY BANK, 3, Victoria Street, S.W.

SECRETARY :

C. HINTON MOORE, Late Royal Canadian Rifles.

TEMPORARY OFFICES :

7, PALL MALL, S. W.

PROSPECTUS.

IN spite of the increase in the number of Hotels in the Metropolis, no attempt has yet been made specially to provide for the wants of Members of the Services. The tariff at the majority of West End establishments is almost prohibitory to those who are not in receipt of large incomes, and numbers of families are prevented from visiting London during the Season owing to the enhanced rate of living.

The Army and Navy Hotel is established for the purpose of these requirements, and is intended for the use of the Public as well as of the Shareholders, priority being in all cases given to the latter.

The want of comfortable accommodation in London, with living on an equality with that of a Regimental Mess, and at economical rates, has always been felt by Officers of the Services. This it is now intended to supply, both for temporary use and also in the style of a Residential Club, so that Shareholders may retain Private Rooms or Suites of Rooms with good attendance, and the use of General Dining, Drawing, Club, Smoking, and other Rooms, while they may be either Boarded at very moderate rates, or obtain their meals as required in Club fashion, and at charges framed from those adopted by successful public caterers.

The rooms of the Hotel will be plainly yet substantially furnished, avoiding the glitter of decoration which, while adding to the expense, does not add to the comfort of the visitor.

It is proposed that Baths of every description, including salt-water and Turkish, shall, if possible, be obtainable in the Hotel.

Drawing Rooms for Ladies and also Billiard Rooms, together with rooms for Reading and Smoking, will form a feature in the establishment.

The *Cuisine* will be under the superintendence of experienced Cooks, and whilst Bachelors will find all the advantages of a Mess, Married Officers will not miss the comforts of home.

Special facilities will be afforded to the families of officers proceeding to or returning from abroad, and, if desired, their travelling arrangements can be conducted by trustworthy agents.

Special rates will be introduced for Servants' Board and Lodging.

No charge will be made for attendance; all servants of the Hotel will be liberally paid, and visitors are not requested to make any *douceur*.

A Post and Telegraphic Office will be established in the building, and it is intended that arrangements may be made by which uniform reduced railway tickets to all parts of the world without leaving the premises.

Visitors who may wish to make the Hotel their home during their stay will be received at a fixed and very moderate tariff. It is intended to fix the Tariff at as low a rate as is compatible with the declaration of a Dividend, and it is confidently anticipated that Board and Lodging can be provided for about the same cost as is now charged by other Hotels for Rooms alone.

Suites of Residential Chambers, for Ladies as well as for Families and Bachelors, will form a distinctive feature in the Hotel. These will be let at a fixed and moderate rental, or the Leases sold for long or short periods.

A list of "Regimental Exchanges Wanted" will be hung in the Reading Room, and all the latest telegrams also exhibited.

The cost of preliminary expenses has been contracted for up to allotment, at 3 per cent. upon the Capital.

A contract has been entered into for the acquisition of an eligible site in close proximity to the Clubs, West End Stations, Parks, and Houses of Parliament, dated 19th July, 1880, between W. H. S. Aubrey of the one part, and C. Hinton Moore, on behalf of the Company, of the other part, together with a contract dated 8th September, 1880, between F. C. Hughes-Hallett, on behalf of the Company of the one part, and W. H. S. Aubrey of the other part, and two contracts of same date between W. M. Adams of the one part, and the Company of the other part. All these contracts above referred to can be seen at the Offices of the Company's Solicitor, 20, Regent Street, W.

Application for Shares from Members of the Services and their friends can be made in writing to the Secretary, by giving the name, address, rank, or occupation, and the number of Shares applied for.

Secretary, C. HINTON MOORE,
Late Royal Canadian Rifles.

CAMPAIGN KEYLESS WATCHES.

FAVRE, LEUBA & CO.,
BOMBAY AND CALCUTTA.

In Open Crystal face cases...	...	...	Rs.	25 0 0
In Hunting cases	...	...	„	30 0 0
In Half-Hunting cases	...	...	„	35 0 0

Two years' guarantee. Sent post free to every Station in India.

MESSRS. FAVRE, LEUBA & Co. beg to draw particular attention to the above watches, and confidently recommend them to every person who wants to buy a watch : CHEAP, STRONG, and GOOD.

These watches are of moderate size, in an extremely well-made and tight-shutting German Silver case.

The movement is protected inside by a glass dome.

The movement has a Patent Lever Escapement, built on the soundest scientific principles.

The watches are keyless, and the hands are set also through the keyless mechanism, so that there is no necessity of opening the watch.

The watches have a second hand.

The figures of the dial and the hands are left extra bold, so that the time can be seen instantly on a glance at the dial, and in nearly complete darkness.

The watch, as a whole, combines strength with all the conditions necessary to good time-keeping.

This watch has proved a complete success as a CAMPAIGN WATCH, and its usefulness is recognised by the daily increasing demand from all quarters of our Army in the field.

To Shikaries, Sportsmen, &c., these watches will prove to stand any amount of rough usage and handling.

We guarantee riding will not effect the working of these watches.

We dare confidently say that these watches, if treated with ordinary care, and cleaned once every two years, will give a 15 years'good service.

Every watch is fitted in a wooden case, in which will be found a spare glass, and a spare mainspring.

We receive now regular shipments of these watches by each mail, and every order can for the future be executed by return post.

Only watches that have been examined and timed are despatched on orders.

2 years' guarantee. Packing and postage free.

FAVRE, LEUBA & CO.,
BOMBAY AND CALCUTTA.

N.B.—In order to protect our watches from inferior articles brought on the market under similar names, we engrave our name, or stamp our name, on all of them.

Illustrated Catalogues giving details of our enormous stock of pocket Watches, Clocks, &c., sent free on application.

Our new Illustrated Catalogue for the coming season will appear shortly.

BEST AL

COMMERCIAL INTELLIGENCE

FRIDAY EVENING, OCT. 22.

THE past week from a business point of view has been devoid of any special features of interest, but we are still able to report a decidedly cheerful feeling. The approach of the Dewali holidays is curbing transactions in Piece-Goods for the time being, but prices are well maintained, and the future of the market is hopeful. In Exports there is rather more ready business doing, but supplies of produce are still light, and likely to continue so for some weeks yet. Future transactions are mainly confined to Seeds ; the price of Cotton for future delivery having been run up to a level which precludes any chance of exporters operating, and we look like opening the season with comparatively few engagements. Freights, although quiet for immediate shipment at 30s. per ton by steamer to Liverpool, are very firm for forward loading, and the operations reported are larger than usual for so early in the season. Money is easy to a degree, and Sterling Exchange is weak in consequence, but both Government Paper and Joint Stock Shares are less active than they were a week ago.

MONEY.—Accommodation is still freely offered in the open market at 2 per cent. per annum on Government Securities, but the demand is limited in the extreme, and it is now manifest that we are not likely to see much change until export business becomes active, which will not be until after the turn of the year. In the meantime funds in the hands of the Exchange Banks are beginning to accumulate, and until the turn comes it is difficult to see what outlet will be available for them. Regular trade will not afford any, and Stocks are already at a level which leaves little room for further advance. The Bank of Bombay return for the week ending on Saturday last showed an increase of 18 lakhs in the Cash Balance mainly owing to Deposits.

EXCHANGE this week has ruled extremely quiet, and rates may be practically called 1-16d. lower since last mail. We opened on the basis of 1s. 8d. for demand Bank Bills and 1s. 8¼d. for 3 months' Credits, but a decline of 1-32d. was immediately established in private paper, and the market remained weak on that level until Wednesday. Business was resumed in Calcutta on that day, and as rates opened quiet and showed no signs of lending us any support, the Banks reduced their drawing rates 1-32d. On Thursday a little temporary steadiness was shown owing to Council drafts having brought the comparatively full figure of 1s. 8d., and one Bank opened at 1s. 8d. for demand, but this soon gave way again to the previous level ; and to-day the feeling has been weaker than ever, closing rates being :—Bank Bills on demand 1s. 7 15-16d., Telegraphic 1s. 7 29-32d.. 3 months' sight 1s. 8 1-32d. ; Credits, 3 months' 1s, 8 3-16d. ; Documents, 3 months' 1s. 8 7-32d. ; Francs, 2·13½ per rupee.

Although there has not been much done in the shape of ready business, a fair amount of paper has been negotiated tor future delivery on the basis of an advance of 1-32d. per rupee per month higher up to March, beyond which little difference is made. For April-May delivery demand Bank Bills have been bought to some extent at 1s. 8 1-16d., and 3 months' Credits at 1s. 8¼d. per rupee, but at these figures it would now be much easier to find buyers than sellers. The tendency at the moment, in fact, is all in favour of lower rates in the immediate future, and there are few believers in much of an improvement later on. That we shall have a large export season here no one now doubts ; and from Calcutta and the Rice Ports advices point in the same direction ; but on the other hand the Banks are all well in funds ; imports promise to be active ; any reduction in the Council drawings seems unlikely ; and Silver at home wears the reverse of a settled appearance. Altogether 1s. 8d. to 1s. 8¼d. for demand Bank Bills looks like proving a full average rate to calculate upon throughout the season.

On Calcutta, rates remain unchanged at 3-32 per cent. premium for demand and ⅛ per cent. discount for 60 days' sight. On China for 60 days' sight Mercantile Bills we quote Rs. 219 per 100 dollars. From Hongkong the latest quotation by wire for 4 months' sight Bills on London is 3s. 9¾d. per dollar, and from Shanghai 5s. 2¼d. per tael.

GOVERNMENT SECURITIES.—A strong demand prevailed in the early part of the week which afterwards quietened down for a time, and rates receded 1-16 from the highest point. To-day, however, the enquiry is again active, and rates have recovered the previous decline, closing quotations being :—Fours Rs. 96½, Fours-and-a-half Rs. 104 13-16 buyers. Yesterday business was done for delivery on 15th proximo at Rs. 104½ for Fours-and-a-half.

SHARES.—The market has not been so active this week, and rates have fluctuated considerably, but at the close the feeling is fairly firm and in the majority of cases the balance of the movements is in favour of holders. *Bank* shares are unchanged throughout, Bank of Bombay at Rs. 707½, National at Rs. 106, Agra at Rs. 132. In *Land* Companies the changes are, an advance of Rs. 15 in Colaba, and a decline of Rs. 5 in Port Canning. *Press* Companies are strong, and our quotations show an advance of Rs. 175 in Apollo and Prince of Wales, Rs. 100 in Colaba, Rs. 25 in Akbar, Rs. 15 in East India, Rs. 10 in Dhollera, French Press, and Mofussil, and Rs. 3 in Broach Cotton Company. *Spinning and Weaving* Mill shares gave way slightly in the early part of the week owing to reports of less favourable advices regarding the market for Yarns in China, and higher prices for Cotton here, but the China news within the past day or two being again more favourable, and the fact being well known that the Mills are all working to a profit at the moment, prices have recovered again and now close firm. Our quotations show an advance during the week of Rs. 40 in Bhownugger Mills, Rs. 35 in Victoria, Rs. 30 in Coorla, Rs. 15 in Gulam Baba, Rs. 10 in Empress and Hindustan, and Rs. 5 in Bombay United, Dhurrumsey, and Great Eastern. A decline has taken place of Rs. 30 in Khandeish, Rs. 25 in Albert and Sholapore, Rs. 10 in Jewraj Balloo and Prince of Wales, and Rs. 5 per share in Mazagon and Morarjee Goculdas. Amongst *Miscellaneous* Companies, Bombay Ice Company are Re. 1 higher, Landing and Shipping Company of Kurrachee Rs. 2½ lower.

PIECE-GOODS.—A somewhat quieter feeling has been making itself apparent in the bazaar latterly, and the clearances since the departure of last mail are only estimated at about 2,800 packages of all kinds. This change, however, is not due to any inherent weakness in the position, but simply to the usual contraction of business which takes place in anticipation of the Dewali, and prices have not undergone any decline, but if anything are slightly in sellers' favour. Supplies are still large, although not so excessive as a few weeks ago, and dealers show more willingness to enter into arrival business. At the moment, however, Manchester prices and current rates of exchange do not admit of much being done in the shape of simultaneous operations, which of course is all in favour of a stronger position later on.

In *Local* Goods the sales this week have been about 1,600 packages at an average rate of about As. 8⅞ to As. 8½ per lb.

TWIST.—For English Yarns the demand is slack in the extreme, both from first and second hands, and the actual business done this week has been very limited. Prices as a general rule are unaltered, but the quotations for the higher counts of Mule 70s to 100s are reduced nominally Anna ¼ per lb. Stocks are considerable. In *Local* Spinnings a fair average trade is doing, the transactions reported making up a total of about 2,000 bales at As. 7½ to As. 7⅞ per lb. for 20s. The enquiry is both for local consumption and shipment to China. The latter market in the early part of the week was somewhat unfavourably reported upon, but a telegram received by one of the Local Mills yesterday reports sales at an advance of $1 to $2 per bale.

METALS.—*Copper*.—The market has been quiet with only a small business doing, but prices nevertheless are unchanged and fairly steady. The same cannot be said of *Yellow Metal*, which also quiet and unchanged. *Iron* is dull with supplies in excess of the demand, and for Bars quotations must be reduced As. 8 to Re. 1 per candy.

COALS.—Sellers to arrive having accepted a reduction of As. 4 per ton from previous figures, a considerable business has been done for forward shipment by steamer both in Davison's and Cardiff. We call arrival prices to-day alongside :—

Davison's West Hartley	Rs. 17	per ton.
Cardiff	„ 17	„
Laird's Welsh Hartley	„ 16½	„
Watson's Hartley	„ 16½	„

COTTON.—The stronger character of the Liverpool advices has rendered dealers here very firm, and for ready Old Cotton an advance of Rs. 2 to Rs. 3, and for New Crop—of which there are few and only speculative sellers—of Rs. 5 to Rs. 9 per candy has been established. For export we have not heard of any purchases of New Crop worth noticing, and the ready transactions only reach a total of some 1,500 bales. The fact is that our prices are now a long way above home currencies—especially in New Crop—and until this disparity disappears we cannot see much doing.

The reports regarding the condition of the growing Crop continue very favourable. Hingunghat promises unusually well, and we may expect sample parcels in the course of another month. Omrawuttee is doing better, and the yield of this description will probably be equal to last year. Broach is doing remarkably well, and should the weather henceforward prove propitious, we may expect another large out-turn, although under no circumstances is it likely to be up to last year which was the largest crop of the kind ever gathered. Dhollera is doing well, and to all present appearance will be a first rate crop. It is, however, too early yet to speak of it with certainty, and the same remark applies to Dharwar and Compta.

The *Receipts* of Cotton from up-country give the following comparisons with the two previous seasons :—

	1880.	1879.	1878.
For the Week	6,618	7,104	2,541
Since 1st September	30,312	42,570	17,795
Since 1st January	1,085,189	808,340	876,196

The *Clearances for Sea* since the departure of last mail have been 2,562 bales, making a total of 873,035 bales since 1st January, against 615,468 bales for the corresponding period last year.

The following are to-day's quotations for Full-pressed Cotton with the equivalents in Sterling, Cost, and Freight to Liverpool, via Canal, without Commission :—

	Per Candy.	C. & F.
Old Good Omra (Nominal)	Rs. 212 = 5 7/16d.	
„ F.G.F. do.	„ 204 = 5¼d.	
„ G.F. do.	„ 198 = 5 3/32d.	
„ Good Dholera (Nominal)	„ 208 = 5 11/32d.	
„ F.G.F do.	„ 201 = 5 3/16d.	
„ Do. do. Dec. delivery	„ 203 = 5 9/32d.	
„ G.F. do. Ready	„ 195 = 5 1/32d.	
„ G.F. Compta	„ 185 = 4 25/32d.	
„ F.G.F. Ginned Dharwar	„ 198 = 5 3/32d.	
New Akote (March delivery)	„ 221 = 5 25/32d.	
„ Good Omra do.	„ 218 = 5 11/16d.	
„ F.G.F. do.	„ 212 = 5 9/16d.	
„ Good Hingunghaut, Feb. delivery	„ 232 = 6 1/32d.	
„ Good M. S. Broach, March do.	„ 233 = 6 1/16d.	
„ F.G.F. Dhollera, May delivery	„ 203 = 5 11/32d.	

SEEDS.—*Linseed* continues in strong request at previous prices, say Rs. 7 for ready Old and Rs. 6-9 per cwt. for New May delivery. Business in the latter has been done at Rs. 6-10, but the lower figure is again available. *Rapeseed* is out of stock ready, and for the new crop the enquiry is limited in the extreme. The quotation still stands at Rs. 5-13 for New Guzerat, April-May delivery. *Gingelly* is dull, and comparatively few contracts are making. We quote White Rs. 42½ to Rs. 43, Mixed Rs. 41 to Rs. 42 per candy.

WHEAT is in very active demand, and if supplies were larger, a considerable business would be done. We shall not have large arrivals for some weeks however, and in the meantime dealers maintain their prices in the face of slightly quieter accounts from home. For Soft White we quote Rs. 32 to Rs. 32-8 per candy.

PRICES OF BULLION, &c.

Sovereigns, each	Rs. 12-1-3
Napoleons	„ 9 13 3
Mexican Dollars	„ 224
Five-Franc Pieces	„ 231

THE BOMBAY VOLUNTEER RIFLE CORPS.
REGIMENTAL ORDERS.

BY LIEUT.-COLONEL COMMANDANT W. S. HEWETT.

Bombay, 22nd October, 1880.

1. Members are reminded that the musketry course for the ensuing season will be carried out in accordance with the Musketry Regiment as laid down in the Rifle Exercise for 1879. The back position will not be permitted. All shooting from 500 to 800 yards inclusive will be gone through in the lying down or prone position as shown in the above mentioned book, part V, page 227.

2. Extra drills will be hereafter named for the instruction and practice, blank firing, &c., in the prone position. The Adjutant will be very glad to meet any who may care to attend these extra drills.

3. Members who have not yet obtained their rifles from Head-quarters are requested to do so as early as possible.

4. The number of points to be obtained this season to entitle a Volunteer to the extra capitation grant will be 100 and not 80 in his annual course of Musketry.

By Order,
F. STOKES, Capt. and Adjt.,
B. V. R. Corps.

BOMBAY EDUCATION SOCIETY.

BYCULLA SCHOOLS.—Day scholars are received on payment of fees varying from Re. 1 to Rs. 5 a month according to Standard. Half fees for 2nd and all other children of the same family ; Standards 1—8 in the Boys' School.

1—5 in the Girls' School. Apply to the HEAD MASTER or LADY SUPERINTENDENT.

Byculla, 3rd Sept.

Messrs. C. MARCKS & COMPANY,
OF
BOMBAY and POONA,

HAVE the pleasure of announcing that Mr. A. MENIST, Oculist's Optician, of Amsterdam and London, has appointed them AGENTS for the sale of his celebrated PEBBLE SPECTACLES and EYE-GLASSES, BINOCULARS, &c

Mr. MENIST makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to obtain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts, and the joints become loose, altering the focus of the glasses, and so injuring the eyes ; neither is there any economy in it, for in this climate it corrodes so quickly that it must be often renewed, while Gold or Silver are practically everlasting, and Aluminium cannot be used, for it leaves an indelible mark on the skin wherever it comes in contact with it.

Mr. MENIST'S NON-PRESSURE EYE-GLASSES have a spring so made that it may be twisted in any direction without breaking, and they maintain their position when worn without any pressure or leaving any mark when removed.

His 12 lens "DUCHESSE" are all Achromatic and as powerful as Field Glasses.

His FIELD, MARINE and OPERA GLASSES may be used for hours without causing the eyes to ache.

Mr. MENIST has left instruments with Messrs. C. MARCKS and Co. which enable them to test each eye separately, for it frequently happens that they differ more or less in power.

MESSRS. C. MARCKS and Co., for the convenience of clients who may not wish to purchase Mr. MENIST'S GLASSES, have also in stock some of their own manufacture, at lower prices, in Gold, Silver, and Steel frames, and though the quality of the pebbles is admittedly not equal to those of Mr. Menist, yet it is very good, and much superior to most of what is sold as the "finest Brazilian Pebbles."

Pamphlets may be had on application.

DOMESTIC OCCURRENCES.

[THE CHARGE FOR NOTIFYING A DOMESTIC OCCURRENCE IS TWO RUPEES. THE ANNOUNCEMENT MUST BE AUTHENTICATED.]

BIRTHS.

EDDEN—October 14th, at Dalhousie, the wife of John Edden, Overseer, D. P. W., of a daughter.
SHERD—October 7th, at Lucknow, the wife of W. Sherd, Junior, of a daughter.

DEATHS.

RAVENSHAW—October 13th, at Mian Mir, of typhoid fever, Lieut. Herbert Edward Ravenshaw, Central India Horse, aged 26 years.
SHATTOCK—October 17th, at Khagole, Dinapore, Frederick Foster Shattock, Assistant Traffic Superintendent, E. I. Railway, aged 38 years.

The Bombay Gazette

SATURDAY, OCTOBER 23, 1880.

THE pacification of South Africa seems as endless a business as the settlement of Afghanistan. The arrangement of each old complication there, as in Afghanistan, merely brings some new difficulty to the front. In the end of August Mr. Grant Duff estimated that about ten millions had been spent in the late South African wars, of which only forty thousand pounds had been paid back by the colonies in whose interests those wars had been waged, nor did he give any hope that a larger contribution might eventually be paid by them. And yet, after all, the question is not satisfactorily settled, in spite of the brilliant good fortune which attended our arms from the time that Sir Garnet Wolseley arrived on the scene of action. Those who are skilful in detecting the workings of Providence in the affairs of nations might well point to our troubles in South Africa as an illustration of their belief. As Pompey was the victim of a malignant fortune from the day when he sacrilegiously burst into the Holy of Holies, and as the Duke of Cumberland, in spite of his acknowledged good generalship, was consistently unfortunate in everything he undertook after the battle of Culloden, so since our high-handed annexation of the Transvaal, in spite of successful efforts in the field, we have been "still from one trouble to another borne," until now, after all the expense of men and money, and all the successes that have been won, it may be doubted whether there is more security in South Africa at the present date than there would have been had we annexed no territory and effected no conquests. The permanent source of insecurity which distinguishes the African from the Australasian and American colonies remains. In Australia and America the native races have rapidly died away from the time they came in contact with civilization. In Africa, on the contrary, far from vanishing out of existence, they increase and multiply within and beyond the colonial borders, so that at present in those regions there are some half a million of Dutchmen and Englishmen, surrounded and intermixed with, perhaps, two millions of natives, the majority of whom are warlike. It is true, fortunately for the colonists, that the natives are split up into various tribes at enmity one with another ; but it must be remembered, on the other hand, that the Dutch, especially since the seizure of the Transvaal, are by no means inclined to look upon the English as their dearest friends, and that, in spite of all the efforts of the past and present Colonial Office, even the English colonies have not been induced to combine closely into a confederation for mutual defence against the dangers that surround them. The great end aimed at by the Conservative Ministry and Sir Bartle Frere was security against the warlike tribes of natives, who might at any moment break out into destructive war and insurrection, and the means they thought best for securing that end was confederation. But from the circumstances of the case the means and the end tended to become rather confused, and on some occasions violent measures were taken for security as a means to induce the Cape Colony to agree to confederation. Naturally enough, from the selfishness of weak humanity, Natal being from its dangerous position in close proximity to Zululand more liable to attack, was not averse from confederation, from which it had much to gain and little to lose. But the authorities of Cape Town did not see so clearly the advantages of an arrangement by which they would be bound to protect their exposed neighbour instead of remaining in their own position of comparative security. So the advocates of confederation determined to secure Natal against all danger, thinking that by so doing they would deprive the Parliament of Cape Town of its selfish motive for holding back from the scheme. Natal, on the extreme north, marches with the Transvaal, which in the year 1877 was engaged in a protracted and doubtful contest with Secocoeni, and threatened with hostilities by the Zulus, on account of frontier disputes. On the principle that one's interests are at stake when the next-door neighbour's house is on fire, it was determined to extinguish the flames of war in the Transvaal in order to secure Natal, and the only way that presented itself for accomplishing this object was annexation of that Republic. So the Transvaal was annexed. But the ungrateful Boers, who had gone northward to the Transvaal to escape submission to the British flag, showed a spirit of sullen opposition, and by no means appreciated the honour of being converted against their will into British subjects. How were they to be conciliated ? It was considered out of the question to give them what they really wanted, the restoration of their independence, but they might, perhaps, be brought round by lesser benefits, such as the advocacy of their frontier quarrels with the Zulu King. At any rate, although an English commission had before the annexation of the Transvaal given a verdict in the question of disputed territory in Cetewayo's favour, after the annexation Sir Theophilus Shepstone and Sir Bartle Frere found grave objections to the verdict before given ; and when the land was eventually offered to Cetewayo the concession was coupled with such conditions as led to the Zulu war. No doubt the complete overthrow of the Zulus was looked upon as certain to induce the Cape Colony to unite its fortunes with Natal, as the latter colony would then be as secure against danger as Cape Town itself. So the Zulu war was begun and ended ; and after its completion Moirosi and Secocoeni had successively to be attacked in their mountain strongholds, and were conquered with greater ease than anyone could reasonably have expected. When Natal had thus been seemingly secured on all sides from danger, it was expected that the Cape Colony would now willingly consent to confederation, and Sir Bartle Frere was retained at Cape Town by the Liberal Government on purpose to carry the measure through. But in spite of the efforts made by that popular pro-consul, the Cape Parliament refuse even to consider the question of confederation, and have entered upon a policy by which they hope to obtain security without adopting that measure of confederation to which they seem to have a rooted antipathy. After the overthrow of Cetewayo and Secocoeni, the Basutos are undoubtedly the most formidable tribe which remains unbroken. Basutoland was annexed to the Cape Colony in 1871, but very few Europeans have settled there, and the people have been left for the most part to their own devices. Their country is productive, and they have made good use of it, and industriously accumulated large stocks of cattle and horses, the possession of which ought to be a strong inducement to make them keep the peace. During the Zulu war they rendered us valuable assistance, with the exception of Moirosi and his followers, who maintained themselves successfully against several attacks in their rocky stronghold in Southern Basutoland. But the mass of the Basutos neither made common cause with Moirosi then nor afterwards, when Sir Garnet Wolseley attacked and slew him in his fastness. For all this loyalty they might have expected good treatment at our hands, particularly as the courage they had shown on our side gave evidence that they would prove formidable enemies if arrayed against us. Besides being brave they have a country easily defended and full of numerous fastnesses resembling Moirosi's mountain. Their army, according to one estimate, amounts to 30,000 men, of which a large proportion are horsemen, as we might naturally anticipate in the case of a tribe said to possess as many as 30,000 horses. But their wealth and their formidable power looked upon in another light supplied arguments to those who urged that they should be immediately deprived of the power of doing harm. It was deemed advisable to deprive of the power to do harm the only tribe which still remained strong enough to be a source of apprehension. Now that Moirosi and his followers were subdued, they argued that there was no reason why the Basutos, however loyal they might be, should carry arms. To require the Basutos to give up their rifles while Moirosi was unsubdued would have been to take arms from our friends, and leave them in the hands of our foes. But when the rebel had fallen, the whole nation might reasonably be required to disarm. Such were the reasons which led the Cape Town authorities to insist upon the measure of disarmament, in spite of much advice to the contrary. Sir Michael Hicks-Beach warned them that if they brought about a war by insisting upon carrying out their proposal, they must fight it out with colonial men and colonial money, and Lord Kimberly gave the same warning on behalf of the new Government. Sir Garnet Wolseley, whose success should have ensured respect to his advice, said :—"The disarmament policy will array against us the native sentiment in every part of South Africa ; and should it result in a Basuto war, every native from the Zambesi to Cape Agulhas will feel that every shot fired in it against us has been fired in his interest." But the Cape Town Government thought it knew its own business best, accepted the responsibility, and persevered in its intention. At first the policy seemed to be justified by success. In May news came from the Cape that the Basutos were giving up their rifles, and that the troubles in South Africa might now at last be considered as finally ended. But somehow last month a change seems to have been brought about in the sentiments of the people, and they have been attacking in larger and larger numbers the posts of the mounted police sent to enforce submission to the decree. All the telegrams received so far speak of repulses inflicted on the large bodies of assailing Basutos with little loss to the colonists. But the colonial troops seem to have confined themselves to acting on the defensive, and it was evident that the force sent into the country was too small to effect the disarmament in face of the opposition encountered. The colonial authorities themselves recognized the fact that at least three thousand Europeans were required upon the scene. Accordingly a force of about that amount was ordered to Basutoland, and the Cape Town Contingent started on September 25th. It was probably their arrival that enabled Major Carrington to relieve Mafeteng and destroy the positions of the enemy there, according to the intelligence received by the telegram of October 18th. Up to this time the colonial forces seem to have suffered very slight loss. But to carry out the measure of disarmament they must eventually take to the offensive ; and if the Basutos offer a united resistance, they will have an excessively difficult task before them. Instead of fighting battles in the open, such as were fought in unwooded Zululand, they will have to attack one rocky fortress after another in a country very favourable for the usual Caffir mode of fighting. The Zulus, from the nature of their country, were forced to adopt tactics different from the other Caffir tribes, and had to learn to attack in large columns without any protection from the enemy's fire except the large shields they held in their hands. The other tribes prefer a less open method of attack, and use with great skill the cover afforded by the brushwood which abounds in most parts of South Africa, but not in Zululand. Warfare against an agile foe which refuses to engage in a pitched battle may be prolonged for a weary length of time without any decisive result. The worst of it is that it is no good for the Cape Town authorities, who say that they will not ask for assistance from the Imperial troops and exchequer. If the Basutos gain any success, it will be impossible to avoid sending reinforcements to the country, and England may find herself much against her will once more engaged in war with an African tribe ; and this time her enemy will be a people which has not only done her no harm, but has actually rendered her valuable services.

WE would direct the attention of our local volunteers to to-day's Regimental Orders, from which it will be seen that the annual course of musketry for the season of 1880-81 is to be carried out in compliance with the Musketry Regulations issued from the Horse Guards in July, 1879. By these rules what is commonly known as the back position is forbidden, and all long-distance shooting, from 500 yards to 800 yards inclusive, must be done from the prone or front position, illustrated at page 227 of the Rifle Exercises for 1879. By the enforcement of these regulations there is no doubt that the figure of merit of the different regiments, regulars as well as volunteers, will be materially affected for a year or so ; and it will affect volunteer corps far more than regulars, inasmuch as the back position is at present in vogue to a much greater extent amongst volunteers than in the regular service.

The Bank of England returns for the week ending yesterday show the following results :—

Reserve of Notes	£14,900,000,	Inc. £ 700,000.
Bills Discounted	£18,100,000,	Inc. £ 500,000.
Bullion	£26,700,000,	Dec. £ 900,000.

The proportion of the Reserve to the Liabilities is 40 per cent.

VISCOUNT DALRYMPLE, son of the Earl of Stair, it is stated, is coming out with the new Governor of Madras as his Aide-de-Camp.

BRIGADIER-GENERAL HUGH GOUGH, V.C., C.B., we understand, will command the cavalry brigade at Lahore during the Viceroy's visit.

THE several volunteer corps of the North-West Provinces are absurdly weak, and a movement is on foot for amalgamating them into two battalions, which cannot but conduce greatly to their efficiency.

THE *Pioneer* thinks that the selection of General Hume, C. B., commanding the Allahabad Division, to take over the command of the Army of Kandahar, "is one which seems well entitled to public approval." But what has General Phayre done that he should be superseded ?

THE Lahore paper hears from Peshawur, that on the 12th instant there was a sharp and sudden outbreak of cholera among the followers of the Bokhara Prince, who are just now staying there. Five fatal cases out of ten seizures were reported in less than twenty-four hours. A few other cases have also been reported in other parts of the Peshawur city.

AFFAIRS have become so dull at Kandahar that the hitherto respectable little *News* has taken to punning. The following appears in the issue of October 9th :—Are there no actors in the Citadel ? Has the "farce" gone ? Surely now the "uproar is over," some of the pastimes of "piece" might be indulged in. Could not some energetic and enterprising spirit in the garrison get up a "Kandahar Club" and call it "the Rag ?" Anything to d-rag out the spirits of our seemingly apathetic brethren.

THE *Civil and Military Gazette* gives the following list of the troops moving from the Kurram Valley to Thul and Kohat :—The Deolee Irregular Force left Thull on the 12th October, and will arrive at Kohat 17th October. The 5th N. I. march from Thull on 17th current, arriving at Kohat on the 22nd. The 20th N. I. march on the 21st, the 72nd Pioneers on the 23rd, the 4th N. A. on the 23rd, 29th P. N. I. on the 26th, 13 B. C. on the 27th, all proceeding from Thull to Kohat, which is six marches distant. The following troops will remain at Thull under the command of General Gordon, C. B. : 1-8th R. A., 85th Foot, 8th Company Sappers and Miners, 18th B. C., 13th N. I., and 20th N. I.

CONSIDERABLE changes are in progress at Messrs. Treacher's building in the Fort. The building is a conspicuous one forming as it does the end of Rampart Row. It is in the early Norman style, while the rest of the row is in the Italian, and the effect of the incongruity is heightened by the fact that it is a few feet lower than the other buildings. This particular defect will now be remedied by another storey being added, which will give increased accommodation to the company, and add considerably to the architectural effect of the street. The different floors have hitherto been supported on stone arches, and latterly some of these have shown symptoms of weakness. A great deal of space was occupied, and light and air excluded by these masses of stone, which are now in course of removal, and which are to be replaced by iron pillars and girders. The pillars have been cast by Messrs. Richardson and Co., and they are the most handsome and most elaborate of the kind hitherto manufactured in Bombay. The first floor will be made a part of the show-rooms, access being given by a large staircase. Mr. D. F. Gostling is the architect superintending these extensive alterations.

IT will be a long time, says a Madras contemporary, before the planters succeed in persuading the Government of India to construct a railway from Beypore to run through the Wynaad. If the Madras lines already constructed were earning nine and ten per cent. instead of three or four, there might be a probability of such a line as the planters want being built. They must be content, therefore, to continue agitating for really good cart-roads, until such time as the proposed gold-mines are fairly opened out, when money may be so plentiful that there will be no need to ask Government even for a guarantee for the wished for railway.

WE take the following from the *Pioneer* :—An unspeakable Turk was found lately in the native state of Tonk ; and being suspected of treasonable designs, was arrested. He was brought to Agra and thence to Allahabad, where he was confined in the lock-up, pending the orders of Government. Unfortunately, before the orders were received, the Turk managed to make his escape, and has not been seen since.

A CORRESPONDENT informs the *Pioneer* that the church recently destroyed by fire in Kashmir had been much neglected, and that it was long since any service had been held in it. It is not long ago that a bunniah established himself in the building, and had to be turned out, like the money-changers from the temple in the days of old. On another occasion it was made use of as a stable, and English officers have been known to use it for want of a dak-bungalow.

AT a recent meeting of educated natives of the Punjab on the subject of the extension of the Punjab University College, one of the speakers made the quite irrelevant statement that the general poverty of the people is the fault of the British Government, on which the Lahore paper remarks :—This complaint is a common one, and when it is made in a broad, economical sense by large-minded monomaniacs of the Hyndman type it can be dealt with ; but as a gibe carelessly flung out in a meeting, it is difficult to mete out the exact amount of respect it deserves. We may ask the educated orator, in a similar strain of easy confidence, in what golden age in its history was the Punjab richer than now ? Will he be good enough to compare the present state of the country, and especially the standard of comfort and freedom enjoyed by the masses, with the awful condition of things under one of the best of the Mogul Emperors, as described by the French physician, Bernier ? That traveller's admirable letters furnish pretty complete data for comparison, and a question of this kind is essentially a comparative one. More recent authorities give full information as to the wealth and prosperity of the province under the Sikh rule. Careful inquiry would probably lead to a modification of a hasty, *ad captandum* statement. To use a homely metaphor, the British Government is the most convenient Aunt Sally in the world, and everybody is welcome to have a shy. But an educated native gentleman should first make sure that he has got hold of the right end of the stick.

THE *Pioneer* is in favour of our securing the friendship of Persia by making over to the Shah the province of Seistan, which was awarded to Afghanistan by Sir F. Goldsmid's arbitration, arguing that "it would cost us nothing, while it would be a very gratifying gift to Persia ; and the most scrupulous would hardly now deny our moral right to dispose of Southern Afghanistan as seems best for our future peace." Even Herat the *Pioneer* would be willing to see handed over to Persia ; but this "might entail the necessity of helping Persia to obtain possession of the place, even to the extent of sending a co-operating force, which would never be contemplated in the present temper of the ministry, however desirable the arrangement might seem." So far as Seistan is concerned, there is probably no very serious objection to its being made over to Persia if any good is to be obtained by the concession ; but to hand over Herat to a power so much under the thumb of the Russians would be a grave political mistake.

THE Commissioner of Bhagulpore remarks in his report for last year that accidents on the East Indian Railway in his division were frequent. Four attempts were made to throw trains off the line. Two of these would have led to very serious results had they not been detected in time. In one, three bridge planks were placed across the rails ; in the other, the fish-plate joints were opened with keys. Both these serious cases took place in the same locality, on the Chord Line. The second time, a discharged carpenter and blacksmith, both formerly employed by the company, were apprehended and sentenced to seven and five years' rigorous imprisonment, respectively. This conviction, it is said, has produced a salutary effect in the neighbourhood.

A SUPPLEMENT to the *Punjab Government Gazette* of the 14th instant contains a review of the Criminal Justice" Report for the year 1879. There is an increase in offences reported of 7 during the year. In all frontier districts except Peshawar there has been a large increase in the number of murders committed. The report tells us that the "council of elders acquitted a large number of persons brought before them for trial ;" that the high percentage of acquittals in trials for murder in the Peshawar district is, in the absence of explanation, unsatisfactory ; and that "if this high percentage continues, it will be necessary to take special measures to examine the records of the Peshawur trials, in order to ascertain the cause of the failure of the prosecution." Cases of cattle-theft have increased 50 per cent. in the last three years. The number of cases of "serious mischief by fire" was nearly double in 1879 what it had been 1878 ; and "in 132 cases which were admitted to have occurred, only twenty-eight persons were brought to trial, and of this small number nine only were convicted or committed." The results of trial for assaults show that only 15 per cent. of the persons tried were convicted, many being discharged on the complaints being withdrawn. The number of persons brought before the magisterial courts during the year, including those under trial at the close of the previous year, was 102,542. The average duration of cases under section 36 of the Penal Code was, for the whole province, fourteen days, and in the Rohtak district, the average reached ninety days, "a very high figure," says the review, for which the explanation of the Deputy Commissioner, to the effect that a number of cases required exceptional and local enquiry, cannot be held to be sufficient—an opinion in which we concur. In Bombay such magistrates would be removed from the bench.

NEW ZEALAND, a country possessing natural advantages which ought to make it one of the most prosperous of the British Colonies, is in reality a long way behind that position. There is not much room for astonishment at this being the case, however, when the management of affairs is taken into account. Recently a commission was appointed to inquire into the constitution and organisation of the civil service, and to consider by what means the cost of such service might be reduced without impairing its efficiency. The commissioners have presented a report, in which some curious evidence is afforded. In the railway department one officer was found, "called a locomotive engineer," receiving £600 a year, who admitted that he "had no practical experience of locomotives before his appointment," and whose duties were found to be quite shadowy, if not fictitious. Another gentleman was found in receipt of £425 a year as "manager" of a railway 20 miles long, on which two trains a day ran, and for which the state had also provided a "station-master." In the same place was a "railway storekeeper," enjoying £125 a year, "who had no store and no office." The commissioners suggested that the duties of the manager and the storekeeper might be added to those of the station-master without overwhelming him with work. On another branch an "assistant manager" had £300 a year for doing a part of the station master's duties." Generally, the commissioners found a deficiency of extravagance and a disregard of the recognized precautions in the expenditure of public money. All Government *employés* are paid at a higher rate, and work for a shorter time than *employés* of private firms. By continuing to pay rates of wages to a portion of the population, higher than the agriculturists, manufacturers, miners, and other employers pay for their servants the Government has itself materially contributed to prevent the general employment of the whole population in remunerative occupation, has fostered unreasonable and unattainable expectations, and has thus prevented the full, healthy development of the natural and permanent resources of the colony. There are only 130,000 able European males in New Zealand, and of these nearly 11,000 are in the immediate employment of the Government ; so that every twelfth man is in the receipt of public pay.

THE heroic conduct of the artillery at Kushk-i-Nakhud in having died round their guns has been worthily commented on. "There is, however, as the *Pall Mall Gazette*, nothing surprising in the fact. The same thing is to be observed on most lost battle-fields. There are several reasons why it should be so. The gun itself cannot run away, until officers give orders and men obey them by limbering up. An artillery-man without his gun is a fish out of water. He may be said to have no weapon whatever ; and, besides, all his training and all the traditions of his regiment incline him to stand fast beside the gun he serves. During the German war there were several remarkable instances of artillery-men standing fast and working their pieces under a fire which drove back both cavalry and infantry. Thus field guns, if well handled, serve to cover at least a portion of the force, and we cannot help thinking that cavalry and infantry might with advantage be taught, as a regular matter of training, to rally behind guns when retreating under the fire of a superior force. It is often of the greatest moment to succeed in rallying a body of men who have been repulsed ; and nothing is more difficult than to do so. The Germans have a general rule that brigades or divisions not otherwise engaged are always to march to the "cannon thunder." It is really worth while to consider whether there might not be an equally definite regulation to rally not upon, but behind guns. The usual instinct of the men is to run to the guns, but in doing so they too often sweep away gunners, horses and all, in a confusion which it is difficult to remedy. This is very harmful, and might be got rid of by a little steady practice in peace.

FREDERICK the Great once remarked that, whatever else might be the fate of his subjects, there were two things at least they could never escape—death and decoration, and the latter part of that wise King's aphorism has just received signal verification by the Berlin *Official Gazette*, which gives in several columns the names of those, from generals down to sergeants and gunmakers, who, for services brought to the notice of His Majesty in connection with the late manœuvres, have received military promotion, and been made the proud recipients of medallic marks of distinction, ranging from the black and red eagles of delicately graduated merit to the "general sign of honour."

ACCORDING to some figures given by the Registrar General of England, it would seem that the leading towns of India can compare favourably with the chief cities of the world in the matter of the public health, so far as this can be ascertained by the registered death-rate. The Registrar General finds the average annual mortality per 1,000 of inhabitants in the leading cities and towns as follows : in Madras 27, Calcutta 22, Bombay 27, Paris 26, Geneva 20, Brussels 27, Amsterdam 24, Rotterdam 20, The Hague 26, Copenhagen 25, Stockholm 34, Christiania 28, St. Petersburg 40, Berlin 30, Hamburg 29, Dresden 30, Breslau 37, Munich 32, Vienna 33, Buda Pesth 35, Rome 30, Turin 27, Alexandria 42, New York 27, Brooklyn 27, Philadelphia 19, and Baltimore 18.

Serenade	Titté.
Galop	H. M. S. Pinafore .....Godfrey.

GOA.—Dr. Ennes, the newly appointed Judge for the province of Bardez, who left Bombay on the 14th instant for Goa, took charge of his appointment on the 16th idem.

ASSAULT.—Deen Mahomed Ayatkhan and Khodabux Elaibux were yesterday each fined Rs. 15 by Mr. Dosabhoy Framjee for assaulting a woman named Koolsum, on the night previous, at her residence on the Duncan Road.

SUICIDE.—A Coroner's inquest was held yesterday, at the J. J. Hospital, on view of the body of a woman named Hurnee, who committed suicide by taking a poisonous dose of opium, which she voluntarily administered to herself. A verdict to that effect was recorded.

THEFT.—Abdool Rahimon Wullee was yesterday convicted by Mr. Nana Morojee on two separate charges of theft of property, consisting of a lock and key and sundry articles of wearing apparel, belonging to two different parties residing at the Chucklah. He was sentenced to four months' rigorous imprisonment.

FALL OF A SHED.—A shed belonging to Mahomed Ismail, used as an oil-mill, and situated at Bengalpora-street, fell in on Thursday night last. A man named Mahomed Dossa, who was working the mill at the time, had one of his ribs fractured by a rafter striking him when the roof fell. He was removed to the Goculdas Tejpal Hospital for treatment.

RAIN AT SURAT.—A correspondent writes from Surat, October 21st :—We had a heavy shower of rain yesterday, commencing at 4-15 p.m. It came down very heavily for fifteen minutes, accompanied by thunder and lightning. After a break a steady drizzle set in, which lasted till 9 p.m. There was slight drizzle all night, with breaks. Heavy rain commenced again at 4 this morning, and lasted two hours. This rain was very badly needed to save the crop. The heat yesterday previous to rain was very great.

THE THEFT AT THE MANOCKJEE PETIT MANUFACTURING MILLS.—Luximon Mankoo, a watchman employed at the Manockjee Petit Manufacturing Mills, at Tardeo, was yesterday convicted by Mr. Dosabhoy Framjee on two separate charges of theft of property, consisting of pieces of cloth, towels, sheets, &c., of the collective value of Rs. 100-12, the property of the said mills, and also of sundry articles belonging to Nanabhoy Dhunjeebhoy Banajee, the assistant manager of the mills. He was sentenced to twelve months' rigorous imprisonment.

THEFT AT HORNBY ROW.—Mr. Cursetjee Furdoonjee, residing in Hornby Row, Fort, reported to the police on Thursday last the theft of two silver vessels (*a talee* and *lota*), valued at Rs. 60, from his residence. On Monday last, complainant's female servant locked up all the silver vessels after they had been used on that day in the usual box. On Wednesday, at 5 p. m., she found the box open, the lock missing, and the hasp wrenched off, and the two silver articles above mentioned were missing. The houses of all the complainant's servants have been searched by the police, but no trace of the missing property was discovered. The complainant has about thirty of his relatives living with him in the same house. Enquiries are still in progress.

THE PORT CANNING CO.—We are informed that there were some inaccuracies in the report we published on Thursday of the meeting of the Port Canning Company. Mr. Dosabhoy Manockjee, who spoke in Guzerati, is represented to have said—"We trusted to the good names of Messrs. David Sassoon and Co., as our secretaries, treasurers, and agents, but through their high name, only greater ruin has come down upon us." What the speaker did say, we are informed, was that they had expected great improvements from the connection of Messrs. David Sassoon and Co. with the company as secretaries, treasurers, and agents, but that that expectation had not been realised. Again, towards the close of the report, the words, "The resolution was put to the vote and carried," come immediately after a bantering proposal by Mr. Dossabhoy Manockjee that Mr. B. R. Mody should retire and Mr. Heerjeebhoy Shroff be elected in his place, which reads as if that proposition was adopted. No serious proposal to that effect was made, and the sentence describing the putting and carrying of the resolution really referred to the re-election of the following directors, Messrs. Sakharalla and Bottleboy, proposed prior to the discussion in which Mr. Manockjee's remark occurred. Another point is that the chairman's opening speech, which was directed to explaining the various matters subsequently discussed, was not reported in consequence of our reporter having arrived at the meeting too late to hear it.

THE TRAFFIC ON THE GREAT INDIAN PENINSULA RAILWAY.—The decrease in goods traffic on the G. I. P. Railway for the week ending 16th October, 1880, was 956 maunds, and in money Rs. 40,649. The quantities carried and the earnings compare with 1879 as follows :—

HOTELS.

ALEXANDRA HOTEL AND PINTO'S HOTEL MATHERAN.

MR. J. C. PINTO, the Proprietor of the both well known Hotels begs to inform the public that the above Hotels are now OPENED to VISITORS. There are seven separate Bungalows attached to the Hotels well adapted for Families, for whose comforts every care is taken. The Hotels are well situated, occupy a central position, and are therefore very conveniently placed within the reach of several POINTS. They are also nearest to the Gymkhana and in a breezy locality under the shed of large trees, which diminish the glare and keep the extensive compound always fresh and cool.
To let. Parbul House, Rs. 200. Two families could be comfortably accommodated.

KHANDALLA.

HARDWICKE'S HOTEL
WILL BE OPEN FOR VISITORS ON THE 15TH INST.
5 minutes' walk from Railway Station.

KHANDALLA.

AT the request of many of his Constituents, Mr. Hardwicke, begs to inform the Public that he has succeeded in arranging a Lease of the late Sir Jamsetjee Jejeebhoy's Bungalow, which WILL BE OPENED as a FIRST-CLASS HOTEL.
Mr. Hardwicke is in a position to engage good Ponies, and Tongas will be sent to meet every train.
Excursions weekly to Karli Caves. Croquet and Badminton grounds are in course of construction. All applications for accommodation must be addressed to HARDWICKE'S HOTEL, Poona.
Stabling for 20 Horses.

PATRONISED BY THE ARISTOCRACY AND THE ELITE, EXTENSIVELY USED IN THE ARMY AND NAVY, AND HIGHLY RECOMMENDED BY THE LEADING MEDICAL PRACTITIONERS.

V. PROTECTED BY THE ROYAL LETTERS PATENT, DATED OCTOBER 11, 1869. R.

DR. BRIGHT'S PHOSPHODYNE,

The New Curative Agent and only Reliable Remedy for Indigestion, Nervous and Liver Complaints Fevers, and all Functional Derangements.

DR. BRIGHT'S PHOSPHODYNE is acknowledged by the first medical men in Europe as the most efficacious medicine hitherto discovered for Weak and Shattered Constitutions, Nervous Debility, Aversion or Incapacity for Study, Trembling of the Limbs, Indigestion, Female Complaints, Flatulence, Liver Complaints, Shortness of Breath, Drowsiness, Pains in the Head, Pimples, Impoverished Blood, and all diseases caused by a long residence in tropical climates, for which iron, mercury, iodide of potass, &c., are given in various forms, often to the destruction of the patient's health.

CAUTION TO THE PUBLIC IN INDIA.

Beware of a WORTHLESS IMITATION advertised in a few Indian Newspapers. Dr. Bright's (the only genuine) Phosphodyne is the safest and most reliable preparation of Phosphorus and the only medicine of that name recommended by the Medical Faculty.
Fraudulent Imitations are in no way recognized by the Medical Profession, and are either Useless or Positively Dangerous.

DR. BRIGHT'S PHOSPHODYNE.—Until the introduction of DR. BRIGHT'S PHOSPHODYNE in 1869, Phosphorus was but seldom prescribed as a Medicine, owing to the difficulty in so preparing it that its action could be kept under perfect control. It had been used in Almond and Olive Oils, in Sulphuric Ether, in rectified Alcohol, in Chloroform, and in several advertised medicines ; but in all the hitherto known methods of its preparation, certain irregular results have been experienced. But in the form of DR. BRIGHT'S PHOSPHODYNE, its invaluable action on the human system is realized without any of those drawbacks which other modes of preparation invariably produce.

DR. BRIGHT'S PHOSPHODYNE

Is Sold in Cases only by all Chemists and Storekeepers throughout the Globe.

DR. BRIGHT'S PHOSPHODYNE.—Full Directions for use in the English, French, German, Italian, Dutch, Spanish, Portuguese, Russian, Danish, Turkish, Persian, Hindostani, Madrassee, Bengalee, Chinese and Japanese Languages accompany each case.
DR. BRIGHT'S PHOSPHODYNE.—Purchasers of this medicine should be careful to observe that the words "Dr. Bright's Phosphodyne" are blown in the bottle, and that the directions for use are printed in all the languages as above, without which none can possibly be genuine Phosphodyne. Every Case bears the Trade Mark and Signature of Patentee.

☞ ASK FOR DR. BRIGHT'S PHOSPHODYNE,
And do not be pursuaded to take any Useless and Possibly Dangerous Substitute.

DR. LALOR'S PHOSPHODYNE.

TRADE MARK—PHOSPHODYNE.
DISCOVERED AND SO NAMED, A. D. 1862, BY R. D. LALOR, M. D.

DR. LALOR'S PHOSPHODYNE is a Pure Solution of PHOSPHORUS, in combination with the Vegetable Alkoloids Quinine, Cyripedin, Xanthoxylin, &c., prepared by a Chemical process known only to DR. LALOR, producing a remarkably Elegant and Pleasant Tasted Preparation, equal to the best Wines, perfectly free from Strychnia and all other Dangerously Active Drugs ; superseding the numerous objectionable forms of Phosphorus Pills, Pilules, Oils, and other Nauseous Mixtures with which the Market has been flooded since the Phosphoric Treatment of Disease was first made public by Dr. R. D. Lalor, in 1862.
To Residents in India, China, and the Colonies, it will prove invaluable as a Reliable Liver Tonic and a Vitalizing Restorative.
This Phosphatic combination, the Wonder of Modern Chemistry, is pronounced by the most eminent Members of the Medical profession to be unequalled for its power in replenishing and elaborating the Vitality of the body ; by its supplying all the essential constituents of the BLOOD, BRAIN, and NERVE SUBSTANCE ; and for developing all the Powers and Functions of the System to the highest degree ; by its being agreeable to the palate, and innocent in its action. While retaining its wonderful properties, it acts as a Specific, surpassing all the known THERAPEUTIC AGENTS of the present age, for the speedy and permanent CURE of all derangements of the Nervous and Blood Systems, Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Indigestion and Liver Complaints, Flatulance, Nervous Fancies, Hypochondria, Nervous Debility in all its Stages, Loss of Memory, Softening of the Brain, Paralysis, Affections of the Kidneys, Bladder, Urinary Deposits, &c., Ague, Spasms, Asthma, Consumption, Chronic Bronchitis, Scrofula and Skin Diseases, Wasting or Withering of the Muscles, Impaired Nutrition, Impoverished Blood, Premature Decline, and all morbid conditions of the system, dependent upon the deficiency of THE VITAL FORCES arising from whatever cause

DR. LALOR'S PHOSPHODYNE

Gives back to the Human structure in a suitable form the Phosphoric or Lively Animating element of life which has been wasted, and exerts an important influence directly on the Brain, Spinal, Marrow, and Nervous System, of a Nutritive Tonic, and Invigorating character ; thereby checking all wasting of the Vital Fluid, and the more Exhausting Processes of Life, maintaining that Buoyant Energy of the Brain and Muscular System which renders the Mind heerful, Happy, Brilliant, and Energetic, entirely overcoming that Dull, Inactive and Sluggish Disposition which many Persons experience in all their action.

CAUTION.—The Name DR. LALOR'S PHOSPHODYNE is blown in the Glass of each Bottle, and the Genuine Phosphodyne is manufactured at and is obtainable only direct from Dr. Lalor's Laboratory, London, England. WHOLESALE and EXPORT HOUSES are Specially requested to NOTE this. Sold in Bottles at 4s. 6d. and 11s. by all Export Wholesale and Retail Medicine Vendors throughout the World.
IMPORTANT NOTICE.—Every Bottle bears the British Government Stamp, with the words Dr. LALOR'S PHOSPHODYNE, London, England, engraved thereon by Order of Her Majesty's Honourable Commissioners. IF NOT, IT IS A FORGERY, and you have been imposed on by a worthless imitation.
PUBLIC NOTICE and WARNING to Medicine Vendors and the Public in Great Britain, India, China, and the Colonies.—DR. LALOR'S PHOSPHODYNE is the only Medicine bearing the name PHOSPHODYNE that has the Sanction of the British Government, and for which Her Majesty's Registrar of "Trade Marks" has granted Certificates to DR. LALOR ONLY. Therefore DR. LALOR'S is the only Legitimate and Genuine PHOSPHODYNE. BEWARE of Worthless Counterfeite that may emanate from Australia or America.

DR. R. D. LALOR, Bay House, 32, Gaisford Street,
LONDON, N. W.,
THE SOLE PROPRIETOR AND ORIGINATOR OF PHOSPHODYNE.

PHOSPHO! PHOSPHO!! PHOSPHO!!!

A NON-ALCOHOLIC SPARKLING RESTORER.

THIS new BEVERAGE, which has been under trial for some time past, is pronounced on competent authority to be an excellent TONIC RESTORER in all those forms of nervous disorder in which Phosphorus and Iron are indicated. As it stimulates and invigorates both the MIND and the BODY, we have no hesitation in stating that it is one of the most invaluable NERVINE TONICS extant, and is especially beneficial in constitutions enfeebled through OVERWORK, NERVOUS DEBILITY, and EXHAUSTION. Though a medicinal BEVERAGE, the taste of the salts entering into its composition has been almost completely disguised, and rendered agreeable to the palate, and may therefore be taken in the place of ordinary aerated water.

SOLE PROPRIETORS AND MANUFACTURERS,
